U.S. Plan to Sell lets in Mideast Faces Problems

By Bernard Gwertzman

WASHINGTON, Jan. 24 (NYT).—The projected sale of large mbers of the most modern U.S. sircraft to Saudi Arabia and neel has raised major policy problems for the Carter edministration in the Middle East and on Capitol Hill, administration dciała sold yesterday.

They said that unless there is a high-level decision by President urter to alter plans in the next week or so, the United States is nout to announce formally the sale of 60 F-16s, the Air Force's most advanced fighter, to Sauch Arabia, for \$1.5 billion.

The administration also has

F-16s, another up-to-date fighter, at a cost of \$4.5 billion, and 25 P-15s to complement an earlier

### Callers Say Rightists, Leftists Seized Belgian Industrialist

anonymous telephone callers claimed today that a leftist extremist group was responsible for yesterday's abduction here of Belgian industrialist Baron Sdouard-Jean Empain, other callers claimed that rightist extremists had seized him.

(Continued on Page 2, Col 8)

The first callers said that Baron Empain would be executed tomorrow at noon unless French and West German authorities reease three urban guerrillas, two of them members of the Baader Meinhof . "Red Army Faction" that kidnapped and executed West German industrialist Hanns-Martin Schleyer last fall. Baron Empain, 40, head of the vast Empain-Schneider indus trial conglomerate, was kidnapped by hooded gunmen in front of his apartment on Paris's Avenue

Eclease Terrorists'

The first callers claimed to be speaking for the "Armed Nucleus for Popular Autonomy," They demanded freedom for Irmgard Moeller, 36, and Rolf Poble, 34, members of the Baader-Meinhof group who are in West German prisons, and for Christian Harbulot, a NAPAP member who is talled in France.

A telephone call later said that NAPAP had nothing to do with Baron Empain's abduction.

PARIS, Jan. 24 (UPI).-After Still another caller invoked the name of an extreme rightist fac-tion, the "Joris van Severen" group, which demands the unification of Flanders. That province was divided between France and Belgium 150 years ago. The caller said that conditions for Baron Empain's release would be revealed on Fri-

> In a communiqué hand-delivered to the leftist Paris daily Liberation, NAPA denied that it had claimed responsibility for the kidnapping.
> Police could not verify any of

> the calls. They said that the Van Severen claim appeared to be a hoax because the caller made no demands and the group was beyears ago.

Mr. van Severen was executed by French soldiers at the beginning of World War II.

Plausible Chaims Police said the leftist claims seemed more plausible because the kidnappers appeared to have been young men and because the callers, as in the Schleyer case, made no cash demanda.

French police suspect NAPAP of the assassination of Bolivian Ambassador Zentayo Araya in Paris in May, 1976, and of an attempt to sail the Spanish military attaché in Paris in October,

The leftist newspaper Rouge said that a caller with a youthful voice claiming to speak for Baron Empain's kidnappers said, We eren't political, we're professional. We want a reason of 40 million francs (\$8 million)." The calls were made to Pfench

newspapers and radio stations. Spokesmen for the Franco-Reigian Empain-Schneider group said that Baron Empain refused to employ a bodyruard. Raron Empain has an Italian wife and three teen-aged children. He is the grandson of Gen. Edouard Empain, who became a baron after building one of Belgium's biggest industrial empires.

\$4.5 Billion a Year The Empain-Schneider conglomerate manufactures nuclear power plants, heavy machinery

and has extensive shipping, steel and banking interests. Its 150 companies have 130 000 employees throughout the world and do an annual business totaling 22 billion francs (\$4.5 billion). Prench police said that they

had stopped 140,000 vehicles and 240,000 persons in the 24 hours following Baron Empain's kid-

#### Radiation Threat Held Minimal

# Soviet Atom Satellite Burns Over Canada

WASHINGTON, Jan. 24 (AP) A Soviet military spy satellite powered by a nuclear reactor fell from orbit this morning and phymmeted toward a sparsely populated area of Canada, U.S. officials said.

A Canadian government spokesman in Ottawa said there was no reason for concern about danger from radioactivity. He said it was unclear whether all of the satellite had disintegrated and burned when it re-entered the atmosphere above Alberta, about 850 miles north of the U.S. border

However, Zbigniew Brzezinski, President Carter's national security adviser, said the vehicle broke apart and burned when it hit the atmosphere,

In Moscow, the Soviet Union confirmed that one of its satellites had dropped from orbit over northern Canada and asserted that its atomic power supply was designed to completely self-destruct in the event of such a fall.

The Soviet satellite was launched into a 150-mile-high east-west orbit that changed on every circuit of the globe so that the satellite passed over every land mass in the world, including every area in the United States. Its orbits did not cover Antarctics or the extreme northern parts of Canada, the Soviet Union, Scan-dinavia and most of Greenland. Last Moments

In its last moments, the satellite had flown over the Pacific, moving northeasterly, then over Alaska and had begun its south-easterly course when it hit the

atmosphere. Mr. Brzezioski said that if any radioactivity reached the earth's surface it would be similar in amount to that caused by a nu-olear emphasion in the high atmosphere which could then drift

around the globe for several Government sources said the vehicle was an ocean surveillance satellite launched Scot. 18 under the designation Cosmos-954. The vehicle was designed to keep track of U.S. Navy ships and submarines by radar, particularly the U.S. Atlantic Fleet.

The satellite was the 16th in a series of nuclear-powered satellites that started in December, 1967. Each of the previous satellites had a useful life of about two months before running out of power, the sources said. Ground signals then broke the satellites into three parts, and the sections carrying reactors were thrown into higher orbits-about 630 miles high-where they would stay about 600 years, the sources

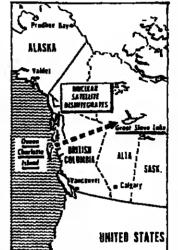

The nuclear reactor was needed because the radar aboard the satellite required a concentrated

amount of power. The government sources, who asked not to be identified, said that the Russians had been unable to get the satellite to work safully despite repeated radio commands, and that they also had tried to get the satellite back into orbit.

Moscow Confirmation

The satellite contained about 100 pounds of the enriched uranium, Mr. Brzezinski said. Ben Huberman, the Brzezinski aide tracing the satellite crash, said Moscow had confirmed this

Mr. Brzezinski said U.S. planes were dispatched to the areawhich is above two Alberta towns called Port Radium and Uranium City-to sample the atmosphere and look for any possible contamination. He said that based on scientific experience it was "very highly probable it would burn up." He said that had the satellite reached a densely populated

Area over which the Soviet satellite disintegrated.

area there would have been "some concerns over hazards to health." Mr. Brzezinski said that, in late December, the United States. which routinely tracks Soviet satellites, found some indications that the Cosmos was encountering difficulties and that it "would re-enter the atmosphere with

days the satellite's orbit had dropped to about 100 miles. On Jan. 12, Mr. Brzezinski sent a message to Soviet Ambassador Anatoli Dobrynin expressing President Carter's concern

that "if the debris fell near a

populated area there could be a serious hazard to the public." On Jan. 14. the Soviet Union sent an answer that was "somewhat reassuring but not fully satisfactory," which prompted an-

cther Brzezinski message on Two days later, Mr. Dobrynin, according to Mr. Brzezinski, "conveyed to me more complete answers which provided more in-

formation—that there was no danger" of a nuclear explosion. Emergency Procedures

The President's adviser said that on Jan. 17 he signed an order to the beads of the Pentagon, the Central Intelligence Agency, the National Aeronautics and Space Administration, and the Office of Science and Technology Policy, directing that certain emergency procedures be followed if there were nuclear debris present on the earth's surface. He did not offer any details of these proce-

#### U.S. Said Planning Air Time for Communists in six languages to five East Euweek can avoid committing an

#### By David Binder

WASHINGTON, Jan. 24 (NYT). -The United States plans to turn the tables on the Soviet Union, in a continuing propaganda struggle with the Kremlin and its East European allies, by offering air time on government radio stations to leaders of the Communist countries, it was reported here. The proposal was initiated by

John Gronouski, chairman of the board for International Broadcasting, an independent agency that supervises Radio Free Europe and Radio Liberty. Mr. Gronouski submitted the proposal recently in the board's annual report to President Carter, which is to be formally released at the end of the month,

knowledgeable officials said. The two radio stations have been broadcasting in 16 languages to the Soviet Union and terprise broadcasting 980 hours a

ropean countries-Poland, Bulgaria, Hungary, Romania and Czechoslovakia - since the early 1950s

#### Defamatory Propaganda

The Soviet government and some of its East European allies denounced the programs of the two stations as "defamatory propaganda" in recent sessions of the 35-nation Conference on European Security and Cooperation in Belgrade.

In his report, Mr. Grocouski said, "The board is prepared seriously to consider, in concert with the radios, the development procedures for making RFE-RL air time available to officials of the Soviet Union and East Europe for responses to those specific complaints which have

merit.' He added that, "no radio enoccasional inaccuracy." Since 1973, when the broadcast-

ing board was formed as an agency responsible both to the executive branch and to Congress, the government has maintained that the two stations were essentially informational in character and were not indulging in primitive propaganda, as had been the case in earlier decades. The stations were set up in Munich by the CIA as part of

its covert propaganda operations and were secretly funded by the CIA until 1971, when the clandestine connection was severed by Congress.

But Soviet-bloc countries continued to denounce the stations as espionage centers and fomentors of hostile propaganda and most of these countries continue to jam the signals of Radio Free Europe and Radio Liberty electronically.

arole rather than the partion manded by supporters of the was criticized. In a statement in New York, te Rev. Dr. Avery Post, president the 1.8-million-member United hunch of Christ, expressed hock, pain and disappointment" t the decision and vowed to minue efforts to prove the movement of the defendants.

The governor's decision meant lat the Rev. Ben Chavis, who as served nearly three years in

#### N.C. Governor Cuts Terms of Wilmington 10 prison awaiting appeals, will be

eligible for parole Jam. 1, 1980. Chavis, director of the Washington office of the church's commission on racial justice, was triginally sentenced to 25 to 29 years in the burning of a Wemington N.C., grocery stone in 1971 and a related charge of conspiracy to dire at policemen

and firemen responding to the 1971 Store Burning

Gov. Hunt reduced that sentence to 17 to 21 years, and Chavis will be eligible for parole after serving one-fourth of the minimum. The remaining defendants, whose sentences were cut by about one-third, will be eligible for parole from June 1 to Oct. 27 of this year. Gov. Hunt, however emphasized that the percie is not automatic and is

strictly supervised. In a statewide televired address, Gov. Hunt said: "From all that I have learned in reviewing this

was a fair trial, the jury made the right decision and the appeliate courts reviewed it properly and ruled correctly."

Accordingly, he said, "I cannot and will not pardon these de-

#### Andreotti Said to Be Making **Crucial Communist Contacts**

By Paul Hofmann

ROME, Jan. 24 (NYT).-Premier-designate Glulio Andreotti was consulting today with smaller parties to explore ways of solving the government crisis, but the crucial contacts were understood to be taking place, in secret, with the Communist party.

Mr. Andreotti, who has been government chief for 17 months and is attempting to form a new government, is seeking a formula whereby Communists would be associated with his proposed cabinet without formally participating

Semantics is important in these efforts, as it frequently is in Italian politics. The substance is clear-Mr. Andreotti, or anyone else who wants to govern the nation today, needs the Communist party's help, but cannot give it all it wants. Thus, a compromise must be devised and clothed in

Aides to Mr. Andreotti indicate that he is thinking of new mech-anisms to involve the Communist party in the decision-making of what he hopes will be his next cabinet. The Communists would thereby be enabled to vote for the government on important issues before the Chamber of Deputies and the Senate, it is suggested.

In the last year and a half, the Communists, along with four mi-nor parties, helped Mr. Andreotti indirectly by abstaining from voting against his cabinet in key votes in Parliament. Mr. Andre-otti and his ministers were forced to resign eight days ago efter the Communists said they would no longer passively support the administration unless they were called to participate in a new "na-

tional emergency government." Communist Secretary-General Enrico Berlinguer told Mr. Andreotti yesterday that his party remained committed to the concept of an emergency government Later, in a press meeting. Mr. Berlinguer indicated that the Communist party Central Committee would examine Mr. Andreotti's counterproposais on Thurs-

Political experts here said that the 180-member Central Committee is being used by the Communist party as a sounding board and as a device to simulate democratic methods, while the real decisions are being made essentially by the nine members of the party Secretariet, a body that in other Communist parties is known as

the Politburo. The Communist demand for participation in an emergency government is based on the contention that political violence, terrorism, the economic recession and other problems have become so grave that they can be tackled only if all political forces-except the neo-Fascists, the Italian So-cialist Movement—collaborate in

a national coalition. The emergency has become the latest code phrase in Roman political jargon. Two of the four smaller parties, which until recently joined the Communists in refraining from opposing the government in Parliament, now back the concept of the emergency. They are the Socialists and the Republicans. The other two, the Social Democrats and

the Liberals, are critical. The Republican party leader, Ugo La Malfa, who has a pres-tige that extends beyond the size of his party—which represents only 3 per cent of the national electorate-has strongly supported a Communist role in an er gency government. Mr. La Malfa said that the Italian Communist party has evolved into a move-Moscow and can be trusted to perform loyally and responsibly

in a government. Today, Mr. La Maifa, after conferring with Mr. Andreotti, said that it would require a mira-

#### Salvut Crew Set To Pipe on Fuel From Robot Ship

MOSCOW, Jan. 24 (UPI).-The Soyuz-26 commonauts prepared today to refuel their orbiting space laboratory from supplies deliver-

ed by robot cargo spaceship. Soviet scientist Boris Baushenbakh, in an article in Pravds said that the refueling would permit the cosmonaute to push the Selyut-6 station farther into

This could extend the orbital life of the laboratory beyond the estimated year remaining, West-

ern scientists said. Tass said that Cosmonauts

Yuri Romanenko and Georgi Grechko were checking whether the fuel pipes are airtight and whether the fuel and gas supply system is in order.

siens have increased their range seven times and their load capa-

## NATO Is Urged to Strengthen Air Warning Fleet in Europe

ERUSSELS, Jan. 24 (AP).— Gen. William John Evans, allied air force commander in central Europe, called today for the installation of an airborne warning and control system to watch for invading Soviet planes and direct the battle against them.

Without it, he said, allied forces would be hard pressed to defend Western Europe.

Under the system, called AWACS, 17 or 18 Boeing 707s with new electronic gear would be brought to Western Europe to watch for Soviet planes over Central Europe. They would work with 11 similar but less versatile planes called Nimrods, which the British have developed mainly to watch over the sea.

AWACS, Gen. Evans said, would double allied warning time by allowing allied defense forces to detect Soviet attackers as they are taking off. He would not give what he called hard figures on the warning period, but called it a matter of minutes.

Gen; Evans said that he would have preferred an all-Boeing air ficet, but that the arrangement now planned is better than nothing and there would be no difficulty "marrying" the two types of planes. The British decided to go ahead with the Nimrods last year after negotiations failed to get allied agreement on sharing the multibilion-dollar costs,

Flexibility Needed

Gen. Evans, whose headquarters are at Ramstein Air Base in West Germany, was speaking at NATO headquarters here.

He told of plans for making U.S. and West European air forces more flexible by "co-locating" airfields so that they could be used for U.S. and European planes. He said there are about 59 underused military airports in Western Europe that could be used to handle planes brought

#### Minister in Bonn **Reveals Spying** On His Secretary

BONN, Jan. 24 (Reuters).-West German Defense Minister Georg Leber revealed here today that counterintelligence agents had bugged the apartment of one of his secretaries without the ministry's approval.

A Social Democratic party spokesman said the minister made the disclosure in a statement to the party.

Earlier, the anti-government magazine Quick had published a report of the eavesdropping, which it said took place in 1975. The disclosure occurred in the middle of a parliamentary invectigation into the leakage of top-secret military information to the Communists

Today Mr. Leber told party members that he knew one of his secretaries had been under uspicion as a spy in 1974-75 and that her telephone was being tapped and her letters opened. But he said he was not told that listening devices had been installed in her Bonn apartment. Mr. Leber said the checks showed no grounds for the suspicions and she is still working for him.

#### Swaziland Explosion

Injures South African JOHANNESBURG, Jan. 24 (AP). A booby-trapped Swaziland post office box exploded, seriously injuring a leading member of the banned African National Congress, the Rand Daily Mail re-

ported today. The paper said that when Abion Duma, 45, unlocked the box a bomb went off, severing veloped leukemia. his right arm. Mr. Duma, an exile from South Africa, was 80,000 in Tests named in the indictment under which '12 black members of the Congress are being tried in Pretoria on charges of subversion and revolutionary activity. #### U.S. Probe Expected to Show **Poor Precautions at A-Tests**

By Walter Pincus

WASHINGTON, Jan. 24 (WP). resently that to compile a com--New details about the use of troops during nuclear weapons tests in Nevada in the 1950s are expected to emerge from hearings that opened today before the House Health and Environment

Sparked by discovery that at least six GIs of 2,235 who participated in a 1957 test developed leukemis—a blood cancer assoclated with radiation—the congressional inquiry is expected to disclose, among other findings, sloppy procedures in the handling of film hadges, the primary means used to measure individual radiation exposure.

At some tests film badges were not given every soldier, according to several participants. A Pentareport from the 1957 nuclear series noted that many soldiers either lost or misplaced

Treated for Skin Cancer

Allan Harris, a California inobserved a 1952 shot and thereafter was marched into the vicinity of ground zero. Mr. Harris said in a recent interview that no badges were given to his unit. Seven years later, Mr. Harris said. he developed skin cancer, for

which he still receives treatment. A former top Atomic Energy Commission official in the health field. Dr. Karl Morgan, said that at early 1950s tests where he was present, only a few soldiers in each unit were given badges, and radiation levels for all were

determined by averaging. The military had a volunteer program where individuals, both in and out of the services, were placed in trenches just over a mile from large shots, so that blast, thermal and radiation effects could be measured on beings. According to a source, after the 42-kiloton blast of 1953 one volunteer lay in his trench with blood on his face.

The Army has put together a list of 30 GI volunteers from tests in 1953 and 1955, but ne apperent effort has been made recently to find these men. Troops often were marched into

the immediate vicinity of ground zero shortly after major shots. After a 74-kiloton device called Hood was set off in Nevada in July, 1957, marines were marched to within 400 yards of ground

sero, according to a recently declaratified report. A marine officer at that test, Charles Broundy, who also wit-nessed two other nuclear tests in 1957, was diagnosed last year as having cancer. He died in

# Male Babies Still Preferred

girls as first choices. in Bangladesh, 91 per cent of those asked said they would rather have boys, only 2 per cent preferred girls and the rest said either. In India, 78 per cent pre-

ferred boys, 5 per cent girls and 17 per cent either. . In Argentina the figures were 33 per cent preferring boys, 3 per cent girls and 64 per cent either. In Chile, 56 per cent preferred boys, 5 per cent girls and 39 per cent either.

Dr. Williamson reports that in many of the developing nations sons are considered a "dire economic necessity" to help in farm-

ing or other work. Many of those countries lack any welfare system, and parents in old age need a sun to help support them. Sons are also seen as carrying on the family line.

Male Pewer High preference for sons, Dr. Williamson writes, also reflects the low prestige and power of women in most societies. "A society in which almost everyone would rather have an excess of boys than an excess of girls is one in which males have more prestige and political and ecocomic power," she said.

Preference for male babies in some developing nations could make population control more difficult, Dr. Williamson notes, since parents who have only girls may keep trying for a son.

As for techniques to "preselect" the sex of a child, Dr. Williamson said that "there are no practical and effective methods of sex control now available." That includes, she said, the timing-of-intercourse method, spermseparation techniques and selective abortion.

For a variety of reasons, she said, none of those techniques has proved effective on a large

"Infanticide" as a method of getting rid of unwanted girls, she notes, was once used in some societies, but "is now widely dis-

In Forcing Out U.S. Attorney

## Carter, Bell Deny Pa. Probe Is Tied to Firing

By Norman Kempster and Ronald 1. Ostrow

WASHINGTON, Jan. 24.—President Carter has submitted a written statement and Attorney General Griffin Bell has given an affidavit denying they knew that Rep. Joshua Eilberg, D-Pa., was under investigation when Mr. Eilberg urged them to replace the cutor in a Philadelphia political corruption case, It was earned today.

It also was learned that the Justice Department has launched an internal investigation to determine whether the replacement of U.S. Attorney David Marston in the Justice Department's Philadelphia office is proper and legal. The moves appear to reflect post-Watergate sensitivity. The unprecedented investigation is ing conducted by Michael

Shaheen jr., the department's counsel on professional responsibility—the equivalent of inspector general in other Cabinet agencies Sought Statements Mr. Carter's and Mr. Bell's sworn affidavits have been sub-

mitted to Mr. Shaheen, sought the statements from them and from other Justice Department officials. At separate press conferences on Jan. 12, the President and Mr. Bell denied knowledge of an investigation of Mr.

Jutice Department officials said that the President's statement carried the same weight as the sworn affidavits because it was submitted in response to an official department investigation. Mr. Shaheen's inquiry, which involves affidavits from

Associate Altorney General Michael Egan, Deputy Attorney Geoeral-designate Benjamin Civiletti and Mr. Marston, are to be sent to Solicitor General Wade McCree jr., the highest-ranking department official with no known involvement in the matler. Call Evaluated

In Philadelphia, where Mr. Ci-

viletti weot yesterday to haodle details of Mr. Marston's departure, Mr. Civilettl said that Mr Eilberg's Nov. 4 phone call to President Carter is being examined to see whether laws were violated. "That call and prior calls are matters that, it seems to me, the public is entitled to know about," Mr. Civiletti said. Th investigation will be cooducted to find those facts." Mr. Carter said on Jan. 12 that Mr. Eilberg had called bim

ment be "expedited." An aide to Mr. Eilberg said yesterday that the congressman had no knowledge—"officially or uoofficially"-that he was under lovestigation when he called Mr.

to ask that Mr. Marston's replace-

Anglican Bishops To Meet in Summer

CANTERBURY, England, Jan. 14 (Reuters). — More than 400 Aoglican bishops from all over the world will meet here this summer to discuss problems ranging from women priests to Christian unity.

The conference, which has met every 10 years since 1867, is being beld at the University Kent July 22 to Aug. 13 under the chairmanship of Archbishoo Donald Coggan of Capterbury.

Carter. The aide said that Mr. Eilberg would not discuss the oratter now because he "has been advised by counsel not to have any comment that pertains to the investigation.

The extent of Mr. Eilberg's knowledge about the broadening Philadelplua corruptioo investigation when he called Mr. Carter is crucial to determining whether he made the call os a politician seeking to replace a republican U.S. attorney (which is tradi-tional) or to impede ao inquiry that could involve him.

Marston Statement Mr. Marston said yesterday that he had given an affidavit stating that on Nov. 16 he told Mr. Civiletti's top aide, Russell Baker jr., the details of his office's investigation of an addition to the Hahnemann Hospital in Philadelphia, the ase which is said to involve Mr. Eilberg

Mr. Civiletti cootended that before Dec. 19, there were "no facts or evideoce" indicating there was a federal investigation of any Philadelphia congressman.

Mr. Marston resigned, effective yesterday, after Mr. Bell offered to let him keep his post until a qualified successor could be found and Mr. Bell was satisfied that the corrupution investigation would not be damaged. Marston refused to accept anything less than serving out the 2 1/2 years remaining in his

Mr. Civiletti conceded that the administration has handled the Marston affair badly, "I think there is a concero among the citizens. I assume that something in the process went awry."

# Over 80% of Australia's banking terminals are supplied by Olivetti.

The problem

To assist Australia's financial institutions in serving the country's fastexpanding economy with flexible and reliable terminal systems for online handling of all banking transactions.

The customers

The biggest savings banks and building societies in Australia, including the Commonwealth Banking Corporation, State Bank of Victoria, Savings Bank of South Australia, State Wide Building Society, Hindmarsh Building Society, United Permanent, Joint Services Network, and others.

The solution

The new Olivetti TC800 intelligent terminal system. In a country where 80% of the banking terminals already in use were supplied by Olivetti, today's market eagerly welcomes the TC800, reaffirming the success of earlier Olivetti systems. An outstanding example: at the Commonwealth Banking Corporation, which uses one-third of the systems installed in credit institutions throughout Australia, all the terminals were supplied by Olivetti.

The choice

Olivetti TC800 terminals are being chosen in preference to those of other major manufacturers because they are intelligent enough to function outstandingly on their own, yet can be adapted easily to join any network. The high reliability of Olivetti after-sales service is another important factor in their selection.

Companies everywhere are choosing Olivetti systems

Here are the latest world-wide totals: 330,000 accounting machines; 140,000 data processing systems and personal mini-computers; 65,000 terminals and data collection units; 150,000 teleprinters and telecommunications units.

THE INTELLIGENT CHOICE IN DISTRIBUTED PROCESSING

## Thérèse Bonney, Paris-Based U.S. Journalist

PARIS, Jan. 24 (IHT).-Thérèse Bonney, 83, an American jour-nalist and photographer, died yesterday of heart failure at the American Hospital here. Miss Bonney arrived in France

in 1912 after being selected by a French commission to head a program to bring French students to the United States for study—the first such intercontinental program, In May, 1919, she escorted 133 girls to the United States, but she was back in November to begin studies at the Sorbonne.

She received her PhD in 1921, the 10th American and 4th woman to receive such a degree at the Sorbonne. She became somewhat of a celebrity.

"I was like Pocahontas to them, a young American intellectual who came to Parts," she once RRAD

Miss Bonney became a columnist for Le Figaro and then founded the first American illustrated press service in Europe, providing newspapers and maga-zine sections with texts and photographs. Rouault did six por-

traits of her, Dufy three.
"It's a beautiful Dufy, but still it's not me," she said in 1973 of one of the paintings in ber living room. "When I first saw it, I said. Dufy, I don't have a double chin.' So he took his brush and added another one"

Therese Bonney from a sketch by Robert Delaunay.

In the summer of 1939, she went to Finland as a pictorial adviser to the Finnish government for the Olympics, scheduled for Helsinki in 1940. Instead she found herself covering

the Finnish-Soviet war. She returned to France in time to cover the Nazi invesion, was at the Belgian front as a freelance photographer when the Germans broke through, and

### U.S. Labor Board Seeks Writ **Against Anti-Union Company**

WASHINGTON, Jan. 24 (AP). -The National Labor Relations Board sought a court order today to stop J.P. Stevens & Co. from violating the law in its battle to

keep unions out of its plants. It was the first time that such an injunction has been requested against an emoloyer by the NLRB since the National Labor Rela-

tions Act took effect in 1935. If granted, the injunction would apply to all Stevens facilities in the country, except those now covered by court decrees. Such decrees are in effect at all company plants in North Carolina

and South Carolina and at those in Dublin and Statesboro, Ga. Stevens, the nation's second largest textile producer, is the target of an organizing drive by the Amaigamated Clothing and Textile Workers Union. The success of the campaign is considered the key to organizing the en-tire textile industry.

The injunction request was filed in U.S. district court in New York

#### 1 Killed, 6 Hurt In Turkey Strife

ISTANBUL, Jan. 24 (UPI).— One person was killed and six were in predith different Turklah cities today in a continuing wave of political violence, the police of union-related activity.

The police detained 150 students on grounds that they held an illegal march through the eastern city of Erzerum: bomb explosions damaged a rightist association building and an industrial arts school in Ankara, and unidentified gummen robbed a bank in Adana, on Turkey's southern coast The killing occurred when a

leftist teacher was shot to clash of rival factions outside a high school in Kars, in the northeastern corner of Turkey. Gunmen in a passing car opened fire on a taxi to Adapa, critically mjured three of its occupants, and two youths were injured in a clash in Istanbul.

#### Egyptian Is Hanged As Libyan Saboteur

ALEXANDRIA, Egypt, Jan. 24 (Reuters) .- An Egyptian convicted of being a Libvan saboteur was hanged today at Alexandria's central prison, the Middle East News Agency reported. Nagui Soliman Mansouri was

sentenced to death in May by a security court for planting a bomb that killed two persons and injured eight at a hotel here.

City, where Stevens has its corporate headquarters. There was no immediate comment from the

John Irving, the NLRB's general counsel, said that the injunction petition was filed only after extensive negotiations to settle or adjust the matter. He said that an out-of-court settlement is still

In its petition, the National sabor Relations Board accused Stevens of engaging in a 15-year multistate campaign to deny its employees their rights under

federal law to organize unions. The NLRB said that the injunction is necessary to restrain Stevens from a national program of Illegal activity and its contumacious conduct toward the National Labor Relations Act.

Stevens, the NLRB said, 'has committed unfair labor practices of unprecedented flagrancy and nagnitude." It noted that the company has been found guilty 15 times of violating labor law and has paid \$1.3 million in fines and back wages since the early

The injunction would prohibit interference with workers in their efforts to organize and would forbid the company from coercing or threatening workers, keeping them under surveillance or discriminating against them because

#### **Envoy Sherer** Plans to Resign

BELGRADE, Jan. 24 (WP). The U.S. ambassador here, Albert Sherer jr, is planning to resign next month to take an

active part in U.S. politics, the Los Angeles Times reported. Mr. Sherer, 62, confirmed reports of his decision to resign as ambassador and alternate representative of the United States to the Belgrade talks reviewing the Helsinki accords on security

He said that he planned to play an active role in Republican politics because of his concern that "the Grand Old Party really seems to be falling apart and I want to get some life back into

and cooperation in Europe.

Guarneri Thieves Caught MOSCOW, Jan. 24 (UPI).— Thieves who stole an 18th century Italian Guarneri violin from Armenian actor R.M. Agaronyan have been arrested and the instrument returned to its owner, according to the Armenian news-

was incolved in missions for the United States later in the war, including a secret one in Finland in 1942 for the Office of

Strategic Services. After the war, she was involved in aid programs in Europe, and was more and more recognized as a bridge between the United States and France. France commissioned her to prepare an official guidebook to Paris, which was published in 1952.

Her honors included the French Croix de Guerre with palm, two citations from the U.S. War Department, the Medal of Honor of the City of Paris and membership in the Order of the White Rose of Finland. She was on officier in the French Legion of Honor.

#### Ronald E. Alley

BAR HARBOR, Maine, Jan. 24 (AP).-Ronald E. Alley, 55, the only U.S. Army officer convicted of collaboration with the North Koreans in a prison camp dur-ing the Korean war, died of a

heart attack yesterday. For more than 20 years, Mr. Alley and his German-born wife, Erna, wrote to presidents, sena-tors and federal officials in an unsuccessful battle to clear his name. They claimed the Army made Mr. Alley a scapegoat. Mr. Alley, then a major, was

captured by the North Koreans in 1950 and spent three years in prison camp. After his release, was court-martialed and convicted on charges of giving information to the enemy. He was sentenced to hard labor.

#### Prof. William Barclay

GLASGOW, Jan. 24 (Reuters). —A leading biblical scholar, Prof. William Barclay, 70, died here today, a Church of Scotland spokesman announced Mr. Barclay's 'Daily Study Bibie" sold more than 5 million copies, the spokesman said.

Vic Ames NASHVILLE, Jan. 24 (AP).— Vic Ames, 52, a former member of the Ames Brothers singing group, died yesterday in a car accident Mr. Ames, vice-president in charge of marketing for Nash-ville Tailoring Co., was an original member of the Ames Brothers, whose most popular sargs included "Tammy" and

"My Bonnie Lassie."

Terry Kath LOS ANGELES, Jan. 24 (Reuters).-Terry Kath, 33, lead singer of the rock group Chicago, shot himself to death while handling a pistol at a friend's home here, police said today.

#### U.S. to Activate Glomar Vessel For Science

WASHINGTON, Jan. 24 (WP).-The Glomar Explorer, which raised parts of a sunkyears ago, will be taken out of mothballs by the National Science Foundation and used to drill exploratory holes in

ocean floors.

Studies under way by the NSF will identify how the 640-foot-long Glomar can best be used, although likely uses include drilling deep into the ccean floor to recover sediments buried by upheavals ionger than a billion years ago. Other possible uses are drilling for oil and natural gas at depths never before attempted. The Glomar Explorer was

pnt into mothballs in California's Suisin Bay two years ago, after the General Services Administration failed to lease the ship to private industry. The ship costs as much as \$30,000 a day to operate, a cost originally borne by the CIA in the 1974 attempt to raise a sunken Soviet submarine from the floor of the Pacific Ocean.

Wreckage of the aircraft which crashed in Australia and was set aftre by its pilot.

## Drug Flight Ends in Crash, Capture in Bush

SYDNEY, Australia, Jan. 24 (UPI).—Policemen led by ab-origine trackers today captured two suspected drug smugglers who had crash-landed their plane and its cargo of mariuana in the dark and fled into the bush.

A police spokesman said that the men—Donald Andrew Talt, 48, an Australian also wanted in the United States, and an unidentified accomplice were selzed near Katherine, 220 miles southeast of Darwin.

Their twin-engined, U.S. registered plane, icaded with 200,000 sticks of opiated marijuana valued at \$3 million in street prices, flew into Ausairspace from Brunei on the island of Borneo Sunday, the police said.

They said that the plane tried to shake off a pusuing air force Hercules transport by diving to treetop level.

#### Crash Landing

The Hercules ran low on fuel and gave up the chase and the two men crash-landed on an s; andoned airstrip, where caught fire, the police said. They said two used distress flares and a firing apparatus were found next to the wreckage, indicating that the aircraft may have been deliberately set

The police hunted the two men for 36 hours using three aborigine trackers familiar with

the dense scrubland. They identified one as Tait, who escaped in July from an Indonesian prison where he was serving a 17-year sentence for drug running. They did not give the name or nationality of the second man, but they had said earlier he might be David Alian Riffe, 36, an American arrested with Tait in Indonesia and who broke out of jail the same day.

#### **News Analysis**

## Carter Juggles Political Hopes With Budget

By Hedrick Smith

WASHINGTON, Jan. 24 (NYT). —The budget that President Car-ter sent to Congress yesterday reflects the political calculation that the success of his presidency, especially in 1980, will ride pri-marily on the performance of the economy rather than on his sticking strictly to campaign promises.

Some of his aides acknowledge that he has risked offending conservatives by tacitly abandoning his hopes for a balanced budget in 1981 and disappointing liberals by tempering his plans for tax reform and by the lack of drama-

tic social initiatives. He has gone about his central objective of promoting economic growth in moderate, orthodox fashion—with a tax cut aimed at spurring the private sector and timed to put money in voters pockets just a few weeks before this fall's congressional election. And he has made clear that he so favors this strategy that he already is contemplating another

#### tax cut to 1980. **Priorities**

As the President said in his hudget message, the first budget of a new administration is its most important because it. priorities and a philosophy. Yet what may be most striking about this President's first budget is the lack of radical departure from the Republican budgets of the last eight years. The Carter imprint is modest indeed, for there are no programs that offer broad direction or provide a distinctive hallmark for the Carter admin-

Mr. Carter's sides and Cabinet officials can point to new spending for education, for energy, for jobs for youth, for health care for poor children, for larger housing subsidies, or a surprise rise in federal support for basic research after years of decline, but generally these are not dramatic

Nor, despite all the advance advertising about zero-based budgeting, has any major program been dropped because it was not working well enough savings generated by the Carter approach, Budget Director James McIntyre ac-knowledged, have been "nomi-

Another Cabinet member conceded, "It's a budget that a Republican president could have

put together." Others insisted, with justification, that some particular social programs would have grated on Richard Nixon

or Gerald Ford. There is ample demonstration Mr. Carter's fiscal conservativism. Two of his proudest ac-complishments are holding the growth of real federal spending to 2 per cent and gradually whittling the share of the nation's economic output that is absorbed by the federal budget.

"The span of the government is not infinite," Mr. Carter said, an echo of his admonition daring his State of the Union address last Thursday that "government cannot eliminate poverty, provide a bountiful economy, reduce inflation, save our cities, cure diliteracy, provide energy, or

mandate goodness." Mr. Carter showed that he was willing to holerate a continuing \$60-billion budget deficit for the sake of a tax out, but not for large new doses of federal spending (like those favored by the National Urban League, which last week warned the President of black disenchantment with his

tax-cut approach). In so doing, he is reported to have sided more with Treasury Secretary Michael Blumentha and Charles Schultze, chief of the Council of Economic Advisers over Joseph Californo, secretary of health, education and welfare: Ray Marshall, secretary of labor and Patricia Harris, secretary of housing and urban development, who initially advocated tillions more in federal funds for their

Arguments for the tax cut prevailed because of its obvious political appeal and because it would release funds faster than most federal programs do, hopefully producing about a million new jobs in the private sector. By some accounts, Mr. Blumenthal also led the argument for a reduction in corporate taxes His reasoning was that this would strengthen business confidence and spur a jump in busi-ness investment—the administra-

#### Bhutto's Wife, Daughter Held In House Arrest KARACHI, Jan. 24 (AP).-Mrs

Nusrat Ehutto and Benazir Bhntto, the wife and daughter of former Premier Zulfikar Ali Bhutto, have been placed under house arrest for 10 days, local police officials reported.

The police order was served on Mrs. Bhutto, who is the acting

chairman of her husband's Pakistan Peoples party, soon after her arrival from Lahore Thurs Her daughter, Miss Bhutto, who also has been active in

politics since her father's dismissal and arrest last July, was also served with police orders. Police sources said that both mother and daughter had come from Lahore to witness the cricket test matches in Karachi and there was apprehension of possible political disorder at the national stadium where the test tion hopes for a 9-per-cent in-crease next year—to stimulate the economic growth that Mr. Carter is counting on. The modesty of the budget also

shows that Mr. Carter has taken to heart the political lessons of his first year in office; the need to work with Congress and the need to set priorities. Officials said that it is im-

esible for Mr. Carter to emhark on major programs like those of President Johnson's Great Society in the 1960s because the funds are not available.

The impact of the budget has sen undercut by the changes made by the Carter administra-tion last February in budget, proposals left behind by President Ford. In the jobs area, Mr. Car-ter added \$7.7 billion in spend-ing for the current fiscal year, and this year's budget has to build on that.

Youth employment program for example, would cost \$23 billion next year, up about \$1.4 billion from the Ford administration's levels, but only \$700 million more than is being spent

mination to keep a tight rein on spending has meant that much of the administration's effort was devoted to tinkering with existing programs or shifting funds from one to another. The Economic Development Administration, for example, is being redirected from a concentration on rural areas to urban areas and being given a

modest increase in funds.

On defense spending, Mr. Car-ter has chosen a middle course that is likely to disappoint liberals without cheering conservatives. His budget projects defense spending next year of \$117.8 billion, a real increase of 3 per cent from this year. The White House contends that this meets his campaign pledge to cut the defense budget by 5 to 7 per cent because it is 8 per cent less than the Republicans had planned. But Mr. Carter faces criticism

from liberal Democrats that this still is the opposite of what he promised in 1976 and represents the kind of budget decision that deprives domestic programs of expected when Mr. Carter took office. the funds that Democrats had

## For Moscow Crash

MOSCOW, Jan. 24 (UPI).— The Moscow City Court has sen-tenced a drunk driver to death

problem employee for some time, and as a result of the June accident a number of top people at the trucking agency where he worked had been "strictly punished" by the government and Comminist party. The accident was a "warning to the workers and drivers of enterprises where in-sufficient, attention is paid to drinking and discipline problems,"

by firing squad for causing an accident that killed eight persons and injured seven others, the union dai'y Trud reported last

The daily said that truck driver Valentin Shimko had been a

# Mayor Bans Discrimination By N.Y By N.Y. Against Homosexual

Mayor Edward Koch banned municipal discrimination against homosexuals yesterday, fulfilling a pledge he made earlier this month on his first working day

at City Hall.

To the standard list of things that cannot be used as a basis for bias-race, creed, color or national origin—he added the phrase "sexual orientation or affactional preference."

The executive order applied to agencies that the mayor controls, including the police and fire departments, and to contractors doing business with the

About 120,000 municipal employees were covered, according to a mayoral aide, with only those exempted who work in the so-called "nonmayoral aide" agencies—the boards of education and of higher education, the hospitals corporation, the transit authority and the housing

authority.
The issue has stirred considerable heat in city politics in the past, but Mr. Koch sought to play down such emotion when he with reporters in his City Hall office to talk about the

"All we are doing is not discriminating," he said. "I per-sonally believe that you should

not discriminate, that discrimination is immoral."
While he issued the order, limited to the government and those doing business with it, City Council sponsors of a law that would impose such a ban citywide pulled back yesterday from plans to introduce their measure.

This is at the request of some of the gay rights groups," said Councilman Henry Stern of Manhattan, a Liberal party member

who is the leader of the 13 announced sponsors. Opponents have threatened to have such a law put to public referendum and some of the homosexual rights groups think

#### Gandhi Cited Again

For Silence in Probe NEW DELHI, Jan. 24 (UPI).-Two more charges of criminal contempt were filed yesterday against former Prime Minister Indira Gandhi for refusing to testify before a special commission

last Wednesday. Each charge carries a maximum sentence of six months in jail and a 1,000-rupee (\$125) fine. Mrs. Gandhi contended that she was not required to testify and was barred from doing so by the oath of secrecy taken by all cabinet ministers. Last week, she was also ited on two charges of contempt.

chance next year, a political of year, than this one, when sta candidates-including the go ernor and candidates for u Legislature-would have to tel a stand on a matter that h proven politically volatile.

## The Public MacArthur In a Film Biography

By Thomas Quinn Curtiss

DARIS. Jan. 24 (IHT) -Old provement, goes to Vienna to soldiers never die; they just tade into the movies. In the last few sessons the screen has been haunted by the celluloid phan-lions of Alexander the Great, Julius Caesar, Cromwell, Napo-leon, Rommel and Patton, Now "the rebel general" of the Korean "police action" receives the trib-gte in "MacArthur" (at the Chuny Palace and the Elysées Cinema in English).

The Richard D. Zamuck-David Brown production is an extensive epic into which certain incidents of the general's public career have been woven. It treats exclusively of his Pacific campaigns, his duties as Allied com-mander in occupied Japan and his activities when South Korea was invaded.

. It is by no means a thorough Hography. It begins in the Facilic in 1942 and carries the story to his dismissal by President Harry S Truman for interference in policy.

MacArthur emerges here as an enigmatic figure, the scriptwriters refuse to take sides, though it is less mealymouthed than many the cinema's portrayals of ecent history. He is played by Gregory Peck and often appears more movie actor in uniform than warrior. He may, indeed, have had elements of the former, and his personal vanity is stressed by his combing his hair carefully over his bald spot, by flashes of cool aggression—the sequence in which he overlords the Soviet general in Tokyo is a sharp sketch—and by the snide asides of President Franklin D. Roosevelt and others.

#### Ringing Phrase

MacArthur was certainly dramatic at times and the celebrated critic, George Jean Nathan, never easily impressed, cited his farewell address to Congress as a magnificent performance. Pernaps his press officer wrote it, but it contains a ringing phrase worthy of Clausewitz, "There is no substitute for victory." Peck delivers it with aplomb.

MacArthur's messianic drive is lightly etched and limited in illustration to military and polit-Fical matters. The rumor that · there was an attempt to convert - the Japanese Emperor to Protescantism is not repeated, though t might have contributed an amusing scene. This probably - lalse report spread when Mac-...works were to be sent to Japan. ..... The ban was lifted because bomparding the poor Japanese with Christian propaganda after Hi-

roshima was really too much. The MacArthur-Truman conrontation—Clement Biddle Wood Thas found material for a whole lay in the dispute, "Run-In at Wake"—is discreetly handled and unlikely to offend the general's admirers or detractors, and the same is true of Peck's characterization with its leaven of dry humor. Ed Fanders's Truman is appropriately brash, but Dan O'Herithy's Roosevelt bears a closer resemblance to Woodrow

On the whole, the venture is honest and sincere as far as it goes in biography, and the battle : spisodes have been executed with customary Hollywood efficiency.

"Julia" (at Le Colisée, La Suchette and Le Maylair in Singlish) is derived from a story y Lillian Hellman, but one suspects that Miss Hellman was more precise in relating it. The film reraion is diffuse and so confusing about time and place that the result is tedium.

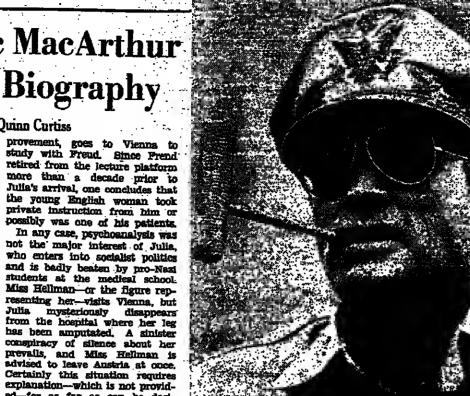

It appears to be a slice of the Heliman autobiography, telling of the author's friendship with a righ-born English girl, Julia, who, fired with notions of social im-

French Alps.

Mont-Blanc.

i- Back

1994::11-11

Gregory Peck as MacArthur.

due in part to the distracting lack of clear chronology. Miss Hellman would have provided a firm scenario and better dialogue.

Jane Fonda's impersonation of the anthor is in the Mussolini manner as she bosses everyone about from Malibu to Moscow. Vanessa Redgrave's Julia, when not romping in the hills at the outset and in the flashbacks, turns zombie, suggesting the frailty but not the force of the ous heroine in the railroad station climax.

Jason Robards as Dashiell Hammett complicates further the time issue, adopting a kind, elderly father-confessor air. In the 1930s Hammett was a vigorous milian Schell also miscast, comes off best under the circumstances as a polite, ingratiating underground messenger.

"W. C. Fields and Me" 1at the Odéon in Englishi presents the great comedian in the guise of Rod Steiger, the familiar screen heavy. The makeup job is excellent, deserving "a special effects" Oscar, but otherwise the perfurof Fields's hilarious comportment and delivery. Why, since Fields, Valentino and Vivien Leigh are preserved on film, can we not see their films in preference to these grotesque biographies about them?

#### **BALLET IN PARIS**

## Nureyev Presents Thorough 'Romeo and Juliet'

By David Stevens

DARIS, Jan. 24 (IHT).—Rudolf Nureyev and the London Festival Ballet have moved into the Palais des Sports until Peb. 19 with Nureyev's lavishly conceived and executed production of "Romeo and Juliet," rewarding in itself and all the more interesting in anticipation of rest month's new staging of the Prokofiev work at the Paris Opéra by the Bolshoi's Yuri Grigamwich

The running time of a little more than three hours (with inpermissions) indicates that Nureyev has tightened up the production considerably since the London premiere (IHT, June 5, 1977), but what remains must still be one of the most thorough and thought-out versions of the ed. The narrative is detailed and Nureyev's almost overabundant original choreography carries the main burden of the retelling.

To judge by pictures of the London production, Ezio Frige-rio's sets have lost the realism of their handsome backdrops in being adapted for the temporary stage. What remains is a set of imposing sliding walls, whose ap-pearance of brick and white and green marble seems to have transferred the action from Verona to some of the narrower

Nurevey does not soure himself in the dancing department, and at the opening performance he was in splendid form. Cape and evening dress in jersey with gold tassels by Givenchy.

with a bloused too over smooth hip lines and a pleated skirt. Givenchy does the spring suit with definitely constructed shoulders, a merrow wrap skirt and a bow-tied or ruffled-front white blouse. It is worn with a hat, light stockings, high-heeled shoes and a silk cord belt that ends in The tassel is the collection's trademark, appearing in gold for the party clothes. "I like the idea of no buttons

and everything wrapping and tying," Givenchy says. He alternates his suits with the spring coat, one of the season's big revivals, over a silk shirt dress. Daytime prints also go with collarless light-weight wool jackets in bright colors that hang open or tie at the neckline

with a silk cord and tassel. Quite different from his daytime uniform, the evening dresses are highly individual but still wrap and cling, showing lots of leg. The pink satin-back crepe is simply made of a big square

blanket, with a gold cord and gold tassels outlining the top, but once put on, it manages to drape sinuously around the body. Two of the most fascinating

dresses combined organdy prints, used plain for big sleeves and hem ruffles, with the same fabric, cut out and intricately re-embroidered for the body of the dress. Givenchy also likes to create a few museum pieces each time.

Princess Caroline, wearing dark glasses and a scarf tied around her head, barely made the Ungaro opening on Tuesday morning, but she had a good excuse. "It was my birthday yesterday, and I went to bed so late it's a miracle I'm standing up at all." she said. Actually, it was Caroline's 21st birthday, a major date in her life since she had promised her family to remain unmarried until that time: Now she is presumably hunting for her trousseau, and

Marc Bohan of Dior to make her Yes, Caroline did love the Ungaro collection with its mix-

tures of colors and fabrics. She had missed the collection's big story, a group of satin suits with the jackets, vests anl skirts all in contrasting colors. For instance, the suit with a white satin skirt had an orange top and big, loose pink blazer.

The satin group was divided between suits with narrow skirts or the new-type pants that start are worn with high-heel shoes, as in most Paris collections. Accessories that went with them were tasseled gold belts, sari-cloth blouses and little satin bows in the hair.

Ungaro's other look mixes different patterns of small, 18thcentury prints in the traditional beige and brown shades with unexpected switches to pastels. The dresses were all loose and long-waisted with matching, unlined sleeveless jackets and coats over

Most of the evening dresses were heavily Oriental; with harem pants, gold embroideries and jeweled boleros like those the Turkish bus boys wear. A few romantic ingenue dresses with Empire waists and jagged hems were made of embroidered chiffon over silk. They had white satin cardigan jackets or

## Conservative \$500-Billion Budget

awe to most. Some may break it down into the number of Rolls Royce automobiles it would buy, or the number of millionaires it would create if distributed wholly to individuals. Others may think of the sheaves of million-mark bills that piled up in Germany during the early 1920s. It is an impressive figure for expenditures, and one that President Carter's first budget fails by some \$60 billion to balance with income.

It runs only some 8 per cent above last year's, and that is not excessive given inflation and the slow emergence of employment from the stagnation that set in in 1974-75. Nor is it as high as Mr. Carter's eampaign oratory led many to expect. Indeed, one of the questions the new budget raises is whether it will spend enough in the right places to give the national economy the stimulus it needs.

This will cause debate in Congress, where the Senate leans toward high defense spending and the House prefers to concentrate on battling unemployment. In fact, however. although Mr. Carter raised the ante for the against the proportion devoted to arma-

Defense spending, which 20 years ago was more than half of the budget, is now less more cautious approach.

The figure \$500 billion projects a sense of than a third of it. One could wish that the same were true of the Soviet Union-if any Westerner could really understand the Moscow budget

Mr. Carter's cautious approach to his budget is one of the characteristics of his actual legislative proposals (with the possible exception of the original energy program) as contrasted with what he said from the hustings in the campaign. It confirms the belief of many that he is, at heart, a conservative, And yet, essentially, this is a conservative if a populist in words; it sets the stage for more confrontations in Congress and among political and social groups in the countrybut it also provides room for compromise with the majority.

So while \$500 billion is a very large sum to contemplate, it is also less inflammatory than might have been anticipated a year ago. And in this, the United States is following the trend that many nations of the industrialized world have set in recent years: an avoidance of the dramatie, an uncertainty about drastic experimentation in economics, a tendency to compromise between right and left.

The workability of this trend in maintaining a growing, or at least a stable economy Pentagon, the relative weight of costs for at a time when many factors, political, social societal improvement has been climbing and economic, are in flux, is still open to question. But at least it avoids the kind of sweeping change that brings chaotic conditions-and offers no more certainty than the

## Mideast, Without Chutzpah

pah—gall and arrogance—in the Middle East oil embargoes. these days. President Sadat and Prime Minister Begin are suddenly discovering great streaks of impudence and villainy in each other's diplomacy. And as usual they look sideways to the United States for a ceasefire signal.

They may yet get it because of a special brand of American chutzpah. Americans, who needed only 13 years to face up to a shift of sovereignty over the Panama Canal, are shocked, annoyed and frustrated to find Egypt and Israel unable to draw a sovereign border for themselves in the interminable time of eight weeks.

It would be best, however, to let the brawling continue. As President Carter and his diplomats have only recently discovered, they must be mainly the midwives to a Middle East settlement. They can carry messages, identify areas of promise and difficulty, and suggest some techniques for achieving what the parties themselves truly intend. But they cannot substitute American hopes or fears for those of the Egyptians and Israelis.

If any aspect of the evolving bargain-and it is certainly still evolving-should come to appear as more important to the United States than to any party in the Middle East. then that element will never be securely cemented into the ultimate peace.

Sadat and Begin must make their concessions to each other, not to Washington; and they must appear to have obtained concessions from each other if the agreement is to be finally sold to their respective audiences of critics.

Together at Jerusalem, Sadat and Begin peered into the promised land of a deal. If they insist now on pushing each other to the brink of failure, let them look over the edge. That Americans see disaster for them there counts for very little; they must themselves experience the fright.

Let Begin contemplate the loss of this opportunity to neutralize the only nation that truly threatens him militarily. Let him contemplate the loss, by resignation or other political defeat, of Sadat, chutzpah and all. Let him think of another generation of Egyptians and other Arabs reared on accounts of Israel's appetite for territory. Let him consider the consequences for Israel of an American public turned to believe that

We are hearing a good deal about chutz- Israel shares the blame for future wars or

Let Sadat contemplate the loss of this opportunity to shake free of a holy war that should never have been Egypt's to fight, can never be Egypt's to win and will only plunge Egypt deeper into poverty and turmoil.

Let him think of another generation of Americans-now poised to reward his brinkmanship-judging Egypt to be as inept in making peace as it has been in war. Let him think through the potential loss of his recent hold on Israeli opinion, let him look ahead to another cycle of military and economic dependence on the Soviet Union.

Only at the brink will Sadat and Begin obtain a clearer idea of which of the issues between them justify the cry of deadlock in a dash to the television studios.

If it is true, as Sadat believes, that the Israelis now see their security tied to the retention of defended settlements in the Sinai desert, then he is clearly right to call it a joke. More likely, the Israelis seek only to establish the precedent, for the subsequent negotiations about the West Bank, of leaving some settlements when their army withdraws. Even then the objective may not be worthy or attainable, but it would not

If it is true, as Begin now charges, that Sadat has changed the proposed forward line of Egyptian troops in the Sinal by 100 miles in just a few weeks, then the Egyptian President's legendary unconcern with "details" is indeed a cause for Israeli concern.

And if it is true, as Americans report, that the central issue in the week's disruption concerns the terms under which some Palestinians are eventually brought into the negotlations, then neither side should expect that difficult problem to be resolved in public

It should be the American objective now to let the fears of failure, in both Israel and Egypt, overcome the name-calling and posturing. It should be the goal of the Carter administration to insulate the American public from the passionate television appeals

That means shelving any discussion of weapons sales to Egypt. It means ignoring Israel's bid to be acknowledged as the more injured party. It means resisting the impulse to stretch a safety net beneath the daring highwire diplomacy of both.

THE NEW YORK TIMES.

#### International Opinion

Begin's Position

Menahem Bezin should be told forthrightly that even Israel's staunchest friends are beginning to despair. His response to President Sadat's bold peace initiative has been unimaginative and unconvincing. If anything, in recent weeks Mr. Begin's attitude seems to have hardened and at times to have become diplomatically provocative.

How else were the Egyptians supposed to take his insistence that he would resign rather than give up the Israeli settlements in northern Sinai . . . where even Israel's most fanciful of Old Testament claims to territory seem preposterous.

If Mr. Begin and the hardliners in his Cabinet insist on the right of Jewish migrants to settle in such areas and live there in peace, why shouldn't the Palestinian refugees in those camps in Gaza be allowed to settle in the parts of Israel from whence they or their fathers fled a generation ago?

. . . The Ezyptians and the Israelis are not going to get back to the negotiating table . . . unless the government of Menahem Begin starts trading significant chunks of occupled Arab land in return for Arab recognition of Israel's right to exist.

-From the Daily Mail (London).

' Seventy-Five Years Ago

January 25, 1903 NEW YORK-Dispatches from Victoria, B.C., report the arrival there of the New Zealand Company's steamer Miowere from New Guines. The officers of the Miowere state that they found the natives of New Guinea were reverting to cannibalism, being driven thereto by want of food. Two European prospectors have been killed and eaten, and among the natives tribal fights to obtain victims have become frequent. A serious investigation of the charges will be conducted in the future.

#### Fifty Years Ago

January 25, 1928 PARIS-Preparations of a grandeur which Paris has not seen in 23 years have been laid for the reception of the King and Queen of Afghanistan, who will arrive this morning at the Gare du Bois de Boulogne from Nice. Paris frequently entertains regalty, but for Kine Amanullah it has prepared to outdo itself, for the Afghan monarch is known to have a marked predilection for things French, and his consort, Queen Thursys, is said to be beau-

## The Unmentioned Issue: Human Rights in China

By Victor Zorza

WASHINGTON-There is some-W thing like a conspiracy of silence in the West about the absence of human rights in China. One reason why we don't seem to care about human rights in China is that few of us know it as an issue. Peking is far better than Moscow et hiding the facts from us.

Most of the Western journalists who go to China have nothing to say on the problem, because they report only what they see
—and they are shown nothing detrimental to the regime, Most Western governments say nothing about human rights in China, because they don't want to upset the Peking regime. China scholars from the West who are invited by Peking do know about the sion of human rights, but most of them say nothing about . it. They want to be invited again.

There are those who say that the Chinese people are naturally submissive, restrained, disciplined. The peasant rebellions which are such a marked feature of Chinese history are enough to refute the argument that the Chinese are naturally submissive. The Communist revolution is only the most massive and the most recent of these rebellions. As for their "discipline," when Mao took the lid off during the Cultural Revolution in the 1960s, the complaints and resentment at the party's iron rule often boiled over into sheer anarchy.

#### Hundred Flowers

of Chine are as keen to enjoy the human freedoms, which President Carter has made into an international issue, as any other nation. In 1957, when Mao Tsetung took the lid off for the first time and launched the Hundred Flowers campaign, which briefly allowed some freedom of expression, there was an upsurge of protests against those features of the regime which mark it as a police state. Many intellectuals demanded the freedom to criticize the Communist party, to form opposition parties and called for free elections.

Just over three years ago a Canton poster which extended over 100 yards of wall space denounced the new ruling class for using its political power to grab a privileged position, and to sup-press the bulk of the nation. The people, it said, "demand democracy. They demand a Socialist legal system. And they demand the revolutionary rights and the

Letters

Proxmire's Perspective

Sen. William Proxmire, D-

Wisc., continues to astonish me

COUNTY.

the mission of embassies.

human rights which protect the masses of the people.

We will never know how prevalent such demands are. Just as we do not know how many people have been executed for political crimes in recent months. All we know is that Western travelers in China have occasionally seen public notices ermouncing the execution of "criminals" whose transgressions were clearly political—and that Chinese officials have denied that any such executions have taken place. With so much of China closed to Western visitors, there is every reason to assume that the few dozen executions which have become known during the past year were only a small part of those carried out.

But it is the less dramatic actions that cause the greatest suffering. Chinese officials still stick to Mao's formula that 5 per cent of the nation are "reactionaries" and that, as such, they are not entitled even to those rights which are supposed to be enjoyed by the rest of the people. In a nation of 900 million, 5 per cent would account for 45 million people. One of the few Western journalists who dared confront a Chinese official with a question about the 5 per cent, William Safire of The New York Times, at least managed to extract an embarrassed acknowledgment that perhaps the figures might be mewhat less than the percentages suggest.

Second-Class Citizens But Ross Muzzo of the Toronto Globe and Mail, the only Peking reporter to write a series of ar-ticles on human rights in China—and to be expelled for it—estimates that about 30 million people are still classed as "rich peasants" because they had owned a few-acres of land and had a few hired laborers before the Communists came to power. The "rich peesanta" are second-clase citizens, receiving between 10 and 20 per cent less pay then others doing the same work. The sine of the fethers are visited on the children, whose entry to schools is restricted. Their families are not entitled to the free medical care, such as it is, available to other Chinese. Several million "reactionaries" are still confined in

"reform" prisons. So much for human rights in China. Yet, Peking propaganda. waxes indignant over the denial of human rights in Russia and on Taiwan, whose regimes would

by any standard, than those of China Official Western criticism of those two regimes is not paralleled by any such Western criticism of Chins. The Carter administration, which would like to be seen as the standardbearer of the movement for human rights, claims that its officials have taken every opportunity to press the leaders of other nations on this issue. But they have put no pressure on the Chinese leaders, beyond asking that Chinese relatives should be allowed to join members of their families in the United States. Nor do other Western governments go further than Washington in this metter.

But the Carter administration has made human rights a worldwide issue. While Western goverrements may find it politically inconvenient to debate the subject with Peking, the moral issue cannot be shirked. The Chinese are as human as the rest of us. To shot our eyes to the suppression of human rights in China is to display the same timidity as many people in the West displayed when Hitler and Stalin suppressed human rights in their own countries. When moral issues are shirked, they have a way of turning into political issues.

## Wanted: A New Relationship

By Gerardo Chiaromonte

the agreement last July are well

From the very moment that the agreement among the six democratic parties was reached, the Communists made it clearly understood that they wanted a new relationship among the political forces to obtain a government that could guarantee not only at the legislative level but also at the executive level that the agreement they helped work out would be fully implemented. [Editor's Note: Last July, the ruling, minority Christian Demo-

crats, together with the Com-munist, Socialist, Republican, Social Democratic and Liberal parties, worked out and signed a "limited legislative agreement" on broad principles for legislation on public order, the economy and social reform, which the parties felt needed urgent attention. The Christian Democrats were to

overseas, the senator's legislative

aide ridicules claims by business

TIS cities.

Given half a chance, the people of Chine are as keen to enjoy the human freedoms, which Pres-But in July, no appreciable re-

> tion of the executive. This produced a giaring contradiction Here we had an agreement that was worked out and signed by six parties, and a government made up only of Christian Demo-We stated then that carrying

sult was obtained on the ques-

out the agreement would involve a fierce debate and that we felt that only a government of soli-darity could face the task. With each day, the economy

and public order have deteriorated, unemployment has increased and our request has become more In addition, the Republican

and Socialist parties have assumed positions critical of government and its activity, which in the last three months have shown signs of deteriora-tion, if not of actually falling Given these circumstances, the

leadership of the Italian Communist party came to the conclusion that the country needed . a government equal to the task of facing such dramatic problems. The future of the nation and the destiny of the Italian people as well as democracy liself are

#### No Time to Wait

It is no longer possible to wait for the Christian Democrats to mature so that they can accept Communist participation in the government. Italy needs a gov-ernment that can act with justice, that can wipe out corruption, that can address itself to all Italians—to the workers, to youth, to intellectuals and to ask of all of them a hard and prolonged effort, hard work and an exceptional commitment to save and transform the country. to resolve the current orisis suc-

In a word, we call for a government able to win the trust it needs from the workers and What should this government

do? First, it should fully and promptly implement the July 1977 agreement, including those changes in it that the political

parties now might feel are necessary owing to new developments. Second, it should inspire a great unitarian drive, both social and political. It should also carry out a rigorous policy in all fields, especially in defending public order and the security of citizens. Within the framework of our Constitution, it should respond clearly to violent attacks on our institutions, democracy and on the republic itself.

We are convinced that an ties that signed the agreement emergency government that un-were to support it in the Parlia-cludes the Communist party would best serve the profound interests of the country, which is calling for clarity, recovery. order and renewal.

#### Nonpartisan Need

Responsibility would weigh heavily on the Christian Democrats and their leaders if they did not realize this and set aside their partisan interests in favor of the country.

If not, the damage this would do to Italy would be irreparable. At this moment, as on every other occasion, we Communis reject any foreign interference in Italian internal affairs. But not because we feel such interference would be dangerous for our policy. On the contrary, it could produce precisely the opposite of the effect desired.

But we do feel it absolutely necessary in such cases to defend the sovereignty and the dignity of our country.

Gerardo Chiaromonte, a senator, is a member of the executive committee and the secretariat of the Italian Communist party. This article translated from the Italian by Ina Lee Seiden, was written for The New York Times.

## Gordon Liddy **And His**

Character

By William Buckley Jr. 👸 🔭 NEW YORK -An hour with Gordoo Liddy, even though the ground rules excluded quartitions on the subject of Watergate, is well—indeed fascinatingly. spent. He has lately been writing about prison life, and it transpire he did not return from bell with empty hands. He was the same Gordon Liddy when he came out of jail as when he went in: and indeed there is a cresping universal respect for him. notwithstanding that one cannot phile. sophically excuse his failure to contribute his own special knowledge of the crime committed in part under his auspices to the prosecution.

You see, for Liddy, as for others mostly to be sure members of the criminal class, informing is the supreme sin. On this point he k almost entirely inflexible. I say almost, because he did concede that if he had been a Jew mistakenly caught up in Hitler's genecidal enterprise, upon seeing the light he would inform against his former associates "on the grounds that they were, after all really trying to kill me." Otherwise his views on informants are relentless, and perfectly captured in the ice-cold water into which he catapults the reader in his stticle, "Serving Time in America" in Esqoire magazine:

"For those whose understanding of prison life is predicated upor early Warner Brothers films de-picting George Raft banging a tin cup against bis cell bars or more recently, the introspective musings of John Dean in Newsweek, besed upon his four months of tender loving care as the prize cenary of the Watergate specia prosecution force, I offer first my credentials. "

#### Victimized?

Those credentials turned out tr be over 50 months in a total or eight jails. He'd have been then yet except that, finally, a Democratic President came along with enough internal security on the subject of Watergate to risk issuing a partion. But there was no attempt to bargain with Lidds. What he did, he did, Whether be believes he was victimized by his superiors, we do not know. We know carry that he uses a Machiavellian vocabulary, in which. the rights of the Prince go Subs stantially unchallenged; and the duties of the Prince's underlines are unquestioningly executed.

Liddy advises us that in prison, there are roughly speaking fluid classes of inmates. Beginning at the bottom are the informant.

These need the protection is solitary confinement or else same. tuaries in other prisons where they are not known-otherwise they are, says Liddy, quite rontinely executed.

Next there are the homosexusis These are men who are considered weak, and therefore coutemptible: given over to tawdr within a society, treated as a

Then there are the drug users These are less contemptible, on gathers, because in order to in dulge their habits it is necessar that they use their wit.

A class above these is what Liddy calls the knock-around men of a high level of com petence, unattached usually, emarsole, generally aloof, and fiercel independent. One gathers the Liddy belonged to that class Which is not, however, the aristocracy. These are those "ac cused"—as Liddy fastidiously putit—of being members of organize crime rings. Once again, then tend to be intelligent men. Mor important, they are men who centacts in the outside world ar sufficient to make them a credib force even within prison.

What is surprising is that Lidd. who is associated in the Water gate epoch as the number on hardimer, should find the enti libertarian hierarchy in questio so plausible, Although Liddy El hibited exemplery powers of still control, powers which can t to a suitable conclusion a philot ophy that led him to follow th deeply mistaken instructions his superiors. These after all we justified on the grounds that & United States is in the businer of defending a free society: suc a society as was imperiled durin the late 1960s and early 1970s t people who took the law in their own hands. (Rememb) chrit disobedience?)

Liddy, having received the ne from the Prince, proceeded i take the law into his own hand If distilusion comes to Liddy, an I think one day it will, one wi want to read about it, becaute be is a man of superhuma

#### To Support the Dollar

## Why Not Liquidate Fort Knox?

Journal reporter has come up with an idea that is so good that it ought to be implemented: Let's sell off some of that gold in the Fort Knox

Early this month the Treasury and the Federal Reserve System announced to the world that the United States was going to intervene more content states was going to entervine more actively in support of the anging dollar. Since then they have done so, with results that Treasiny Secretary Michael Blamenthal appears to find committing.

But if it a complex operation. Central banks of other countries hold assets considered to be foreign resulting. Singe part of which are U.S. covernment accuration. When they may be supported to the covernment accuration.

government securities. Where they want to sup-post their coun correspy in foreign exchange markets, they can sell some of the Treasury securities and use the dollars to buy their own currence in the markets.

The United States has a tougher task, 'The only foreign reserve held by the Federal Reserve System; in eignificant quantity is gold," notes Jerry, Jordan, senior vice-president of Pittsburgh National Bank. 'Presumably, the United States could sell some of its gold for foreign correccy and use the foreign currency to buy dollars on

And why not do at? The present setup is excessively combersome and could have undesired effects. Air. Jordan notes that the partners to a swap leach simply increase an asset item and a Hability them on their books. Initially, the Pederal Reserve Bank records an increase in foreign-owned balances (denominated in dollars) as a Hability. The U.S. dollars put into the ac-count of the foreign central bank are literally created—no one has less dollars as a result. Likewise, the Fed's newly acquired asset—a balance at the foreign central bank—was created."

Up to here nothing has happened to the domesthe money supplies of either country: Central bank belances are not counted. But as the Fed sells the foreign currency and acquires doll the foreign money supply will increase and the

U.S. domestic money supply will decrease. But foreign central banks do not let balances lie idle at the U.S. Fed. They invest them in interest bearing Treasury securities. When the Federal Reserve buys the securities for the foreign bank it increases the U.S. money supply, so the net effect is no change in the U.S. money supply and an increase in the foreign money

In many respects, in other words, the swap net work has the same results as when foreign central banks buy dollars for their own account. They were doing so much of that in late 1977 that they contributed to sharp accelerations in the growth of their domestic money supplies, with the resulting inflationary implicat

In any case, swaps are complicatedposary. Under the swap arrangements these transactions must be reversed within a relatively short period, usually three months. A gold sale, on the other hand, can be forever.

The gold, of course, should not be sold at the I" price of \$42.22 an ounce but at wherever the free-market price happens to be. At the moment it happens to be at a level roughly four times the official price.

The sales, moreover, would have domestic monetary effects, reducing the U.S. monetary base and tending to reduce the money supply. Such an effect would be welcome but it would have to be carefully monitored to be sure it was not overdone. Slowing the growth of the U.S. money supply would also get at the chief cause of the dollar's problems: There are simply too many dollars in the world.

#### **Volume Rises 10-Fold in Four Months**

#### Tökyo Becoming Currency Trade Center

TOKYO, Jan. 24 (AP-DJ):-Bankers here are quietly developing an active market for continental currencies which could fill the one remaining time gap in worldwide foreign exchange trading, and eventually put Tukyo ahead of Hong Kong and Dingapore as an Asian center.

According to foreign exchange brokers and major banks in To-kyo, trade in correncies other than the dollar against the yen since Jan. I already has leaped 10-fold to a daily volume of about \$20 million from about \$2 million last October, when such activity begin

It could "reasonably" reach \$50 million in the future, a trader at Bank of Tokyo Ltd. said.
"Japan is backing itself by small steps into being an international market, one European banker

And despite the restrictions that Japan's monetary authorities impose on exchange transactions involving yen, there does not appear to be any official prohibition on foreign and local banks enged in trades between the dollar, deutsche mark sterling, Swiss franc or other currencies.

According to those involved, a andful of major foreign and Japanese banks have initiated third currency trading in Tokyo. tracts and placing orders through

nese foreign exchange brokerage houses have the capacity to trade in European currencies-Tokyo Tanshi Co. and Hatori Co. other Japanese broker. Warthiki Tanshi, is expected to have a specialist in place this April, in time to meet the competition from foreign

## **Miller Hits Dollar Speculation**

WASHINGTON, Jan. 24 (Reuters).—Federal Reserve Board chairman designate William Miller said today that the United States must resist speculative pressures that drive the dollar to a value below levels justified by underlying economic factors.

He was testifying at Senate Banking Comméttee confirmeployment.

Later, Banking Committee chakman William Proximire, D-Wis, said the committee will hold up consideration of the confirmation of Mr. Miller pending a full investigation of pay-ments by Bell Helicopter in Iran. Committee members said the inrestigation should not take longer then about a week

Mr. Miller is head of Textron Inc., of which Bell Helicopter is

Mr. Miller said that ideally the currency markets would auto-matically adjust the dollar's

"But if the floats become speculative or if they result in changes that are really un-realistic in relation to the true economic facts, I think there is a need to ease them or accommodate them so that there are not penics or there are not changes in economic systems that are unexpected," he said.

He said he feels the recent decline of the dollar against other major currencies had been overdone.

"I thought it was timely to see the Fed and the Treasury intervene," he said.

Mr. Miller declined to take a time position, however, on the Pederal Reserve's decision to raise the discount rate to 8.5 per cent from 8 per cent in an effort to bolster the dollar.

Mr. Miller referred to the Fed decision as a "close call" which

#### Fed Resolves Problem Over Foreign Banks

NEW YORK, Jan. 24 (AP-DJ). —The Federal Reserve System has come up with a solution to a tax problem affecting foreign central

The solution will allow the Federal Reserve to resume so-called repurchase agreements, or repos, in the open market for central banks. Under such an arrangement, the central banks buy securities from others who agree to them back at a later date and, in effect, pay interest over the period.

The Fed halted such market activities last May when an Internal Revenue Service tax ruling raised the possibility that central banks would have to pay a tax on the income earned.

As part of the solution, the Fed in doing customer repos will act as a principal in the transaction, instead of an agent as it had done in the past.

Under IRS rules, governments and foreign institutions owned and controlled by other governments can make "passive" investments in almost anything, as long as they are not of a commercial nature, and still escape taxation. The IRS tex ruling last year

concluded that repurchase agreements were simply loans backed securities as collateral. This open the possibility that the IRS would determine that openmarket repurchase agreements by foreign central banks were of a

With the Federal Reserve injecting itself as a principal, the transactions with the Fed are not taxable. Under the new system. the Fed will enter repurchase ments with securities dealers directly for its own account. It then will sell the acquired securities under another repurchase agreement to the central banks.

he neither supports nor disagrees

Mr. Miller said he believes Fed policies have been "correct." He told the committee his objective as Fed chairman "will be to continue to try to steer monetary policy" so that economic growth and prosperity continue, and to reduce unem-

Mr. Miller said he believes in the independence of the Federal Reserve, stating that "the inde-pendence of the Federal Reserve en essential part of the sys-

He pledged that under his ship, the central bank will maintain a responsible indepen-dence, accountable to the Congress, the public and the admin-

Page 7

Mr. Miller also said slower long-term growth in the money supply is needed if inflation is to be brought down. He declined to commit himself to what the short-term targets should be.

He said there is no question. however, that current conditions make it difficult to get the rate of inflation down, and he sees little likelihood it will fall be-

low 8 per cent this year. He said lower government spending and smaller budget deficits will be needed to help con-

## "The point was to rent the apartment fast...

"And I did. Just two days after my ad appeared." That's an actual quote from someone who recently offered an apartment for lease in the classified columns of the Herald Tribune. We receive testimonials like that all the time.

Perhaps because Herald Tribune readers are responsible and responsive people. Better off than most, better placed, better paid. And so in a better position to buy the things they see advertised in their favorite newspaper.

So if you want to rent an apartment... or sell a car... or hire a secretary... give us a try.

You'll see...

## Herald Tribune ads work.

Just telephone 747 12 65 in Paris or your local Herald Tribune representative to place your ad.

THE BLACK MARBLE

By Joseph Wambaugh. Delecorte. 354 pp. \$9.95.

Reviewed by John Leonard

SOMEBODY should get a grip on Joseph Wambaugh with one hand and slap him back into shape with the other. He ought not to be allowed to be cute. In "The Choirboys" he looked as though he had passed Céline and might even be gaining on the young Dostoevski. There was nothing cute about "The Choirboys,'

Naturally, "The Choirboys" has been turned into a mindless movie, just as Raymond Chandier's "The Long Goodbye" was turned into a mindless movie.

Wambaugh isn't mindless. The violence in his novela is not gratuitous; it is the condition, the architecture and the ether and the tides, of his world. What was interesting about "The Choirboys" was that it had scoured itself of Chandler's streak of sentimentality. It was dirty, but clean: no tears.

"The Black Marble" is, in part, both sentimental and cute. Our detective, Valnikov, is 44 years old and divorced. After 22 years on the force, 15 in homicide, he loses his partner and goes strange. He is transferred to Hollywood, burglary and paired up with 39year-old, twice divorced streetsmart Natalie Kelso Zimmerman, who knows he is a drunk, suspects he is a doper and believes him to be crazy. Together they track down a dognapper who snatched a prize-winning schnauzer and wants \$85,000 in ransom.

Valnikov is also a big. gloomy Russian, the son of a captain in the czar's army. He drinks Stolichnaya vodka. He listens to "Boris Godunov" and Gypsies-He dreams of a wounded rabbit in the snows of Siberia, his manpers are impeccable and be is kind to old ladies. When Natalie asks him the big philosophical question-"What's the point?"he replies, "There is no point . . . that's the point." And when he decides that "There's nothing more than the big sewer. Any-thing else is . . . " she finishes up for him; "Is what you make of it . . . what we make of it," and sha holds him in her arms.

But by this time be is a dance ing bear who dreams, not of schmauzers or wounded rabbits, but of nightingales singing in the raspberry bushes of Russia, and she is calling him Andrushka. and be is calling her Natasha. and I am calling the cops.

There are many, many good things in "The Black Marble" because Wambaugh is too talented to be cute full-time. The opening scene, with Valnikov drunk at a Russian Christmas vesper service, having lost his handcuffs, is splendid; "There by the old monastery garden, framed by the onion dome of the Holy Virgin Mary Russian Orthodox Cathedral, a howling dervish, a phantom with matted

Salution to Previous Puzzle

soppy hair, was twirling in the shadow of the golden cupola. His yellow rubber raincoat was spread wide. His dripping pants were torn down around his ankies Poth hands beld his genitals. He mouned ghost ike, doing a lonely mad waltz in the rain."

Equally good are the depictions of shabby gentility in big-time dog-show Pasadena. lunacy in the Los Angeles Memorial Sports Arena, sniper fire, life in the kennels and in the station house (particularly the competition between Montez and Bullets Bambarella . Nobody else handles such material as well as Wambaugh. His stories of No-Show Weems, Spare Simpson and Itchy Mitch Spareparts introduces the concept of "always picking the black marble." finding had luck as though you were seeking it-are neat and

necessary digressions.

And in Philo Skinner, dognapper and terrier king. Wambaugh bas a character right out Graham Greene, high on his first crime, lecherous and doomed, killing the only creature in the world who ever loved him When the demented Philo cuts off the ear of the little dog Vickie, my teeth fell out. Hor-rifled at himself, he tries to flush the ear down the toilet; it keeps coming back up. "It floated on the water like a dead bat." It is a scene as powerful as the horsehead ful of eels, raised from the sea in Gunter Grass's "The Tin Drum."

Wambaugb specializes in losers not violins. Whatever impeller him to contemplate, and theo x stickily to embrace the affirmative cliche of Natasha and Andrushka-the nightingales am the raspberries—ought to be flushed down with Stolichnays Back to the bloody borscht. Tri not saying that love isn't possible, even in Los Angeles, but I don't believe this particular love in this particular sewer be cause, I suspect, Wambaugh didn't believe it, either.

John Leonard is on the staff of The New York Times.

#### Karpov, Korchnoi To Begin Match Around July 15

WIJK-AAN-ZEE, the Nether lands, Jan. 24 (AP).—World che champion Austoly Karpov of the Soviet Union and his challenger exiled Soviet grandmaster Victo Korchnot, will begin their mate for the world title around July 15, an official of the Interns tional Chess Federatics nounced. A venue for the encounter h

not yet been chosen. Offers thost the event must be submitte to the headquarters of the feders tion in Amsterdam before noc Feb. 16, the organization's se retary-general Incke Bakker sel So far only the Philippines h formally announced that it w make an offer, Miss Bakker sai "In view of the staggeriz costs involved, prospective orga nizers have to deposit a guarant of \$300,000 before their bid is a cepted. The players can li their preferences on the besof the various offers, which w be made public on Feb. 16," s said. The final decision resiling with the federation's presider Max Euwe.

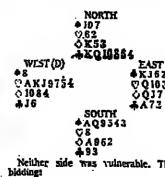

#### BRIDGE.

By Alan Truscol

On the diagramed deal East might have raised his partner's three-heart opening to game, an action that is usually right with three-card support irrespective of strength. But East judged, cor-rectly, that nine tricks would be the partnership limit to hearts. and it seemed that he would have sufficient defense against any game that North-South might

South naturally tried three spaces, and North raised aggressively to game. West led the heart king and shifted to a dismond which was won in the closed hand with the ace. The chib three was led, and

the defense went astray when East failed to duck with his ace. His partner was to blame for omitting to play the jack, the standard move with a doubleton. East would not have interpreted the jack as a singleton, since # had not been led at an early stage, but he had good reason to

#### Beats Crenshaw in a Playoff

## Watson Captures Crosby Golf

By Bill Shirley

PEBBLE BEACH, Calif., Jan. 24. Tom Watson, who won five tournaments last year, including the Masters and the British Open, beat Ben Crenshew in a playoff yesterday to win the Bing Cresby Pro-Am championship here.

It was his second victory of the year—he also won at Tucson—but he says his game is "hot and cold" and not so good as it was last year. "I'm not consistent," he said

after knocking off Crenshaw on the second hole of the sudden-death playoff. "The club doesn't feel as good in my hands as it did last year. I can draw the ball (hit it from right to left) I can't fade it [hit it from left to right]. I still have a hone way to go to hit the shots I want And besides, he said, he still

isn't swinging his driver well enough to suit him. He practiced for three hours last Thursday, trying to straighten that out.

himself at the par-3 17th hole when he knocked his too shot into the front bunker and made his only bogey of the day. "That was the mistake that killed me," he said.

Last Two Winners

Crenshaw saved a par at the 18th after being in the rough on his second shot and a bunker on his third, and so it was the winners of the lest two Crosby tournaments who went to the 16th tee to start the playoff. Watson, 28, was the defending champion and Crenshaw, 28, won in 1976.

They parred the first hole, each taking two putts, but Crenshaw knocked his tee shot at No. 17 into the front trap that d'd in Irwin. Still, Crenshaw was closer to the hole than Watson, who hit a poor shot to the right side of the green, 70 feet from the cup. Wetson's first putt stopped

3 feet short and Crenshaw blasted from the bunker to within about 10. Crenshaw missed, Watson didn't. The victory was worth \$45,000 so Watson has already made \$87,600 this year. He led the lesgue with \$310,653 last year, and, in six years, he has earned Won It for Bing

Watson said he is a sentimentalist. "Winning the townsment the first year after Bing died put some happiness in my heart,"

Ray Floyd, who was tied with Watson for the lead at 5 under par after 54 holes, shot e 75 and finished at 286, only 2 under par. Jack Nicklaus had a 290 after shooting 73. Gfbby Gilbert and his smateur partner, Richard Geb, an 11 handicapper, won the team championship. They finished 28 under per.

## Ewbank, Alworth Among Five Joining Football Hall of Fame

CANTON, Obio, Jan. 24 (UPI). Weeb Ewbank, the only coach to win championships in both the National Football League and the American Football League, and Lance Alworth, the AFL's first star, are among live newly elected members of the Pro Football Hall of Fame, it was announced

Also elected were Larry Wilson, a hard-tackling free safety and the first Hall of Fame player from the St. Louis Cardinals, Ray Nitschke, the leader of Green Bay's defense during the Packers' championship years of the 1960s, and Alfonse (Tuffy) Leemans, an all-purpose running back who starred for the New York Giants from 1986 to 1943.

The four players and Ewbank were selected by the hall's 29member board of selectors-reporters from each NFL city. The election brought the number of Hall of Fame members to 98. Ewbank, now 70 and retired in Oxford, Ohio, was the winning coach in two of pro football's

most significant games. He guided the Baltimore Coks to NFL titles in 1958 and 1959. The 1958 championship, a 23-17 sudden-death overtime victory over the New York Giants, has been dubbed "the greatest game ever played." It was the first NFL title game televised nationally and was given credit for launching the explosion of interest in

pro footbell in the 1960s. Ewbank later became head ceach and general manager of the New York Jets in the AFL, guiding the team to the 1968 league title and a Super Bowl up-

set victory over the Colts. Alworth, one of only two play-ers ever to gain 10,000 career ment in 1970.

first Hall of Fame member who was primarily a product of the

Nitrchke, a middle linebacker, joins coach Vince Lombardi, Jim Taylor, Bert Starr and Forrest Gregg as members of the Fackers' title teams in the Hall of Fame, In 1967 he was named by the NFL players as the league's best linebac

Lesmans, 65, was the second selection of the Giants in the first college draft in 1936 after a standout career at George Washington. In his eight-year pro career, he became one of the NFL's most dependable all-purpose backs, rushing for 3,142 yards and gaining 2,324 in pass receptions. A fulfback, he scored 20 touchdowns and passed for 16.

#### South Africa Moves To Rejoin Olympics

LAUSANNE Jan 24 (UPI).--The International Olympic Committee confirmed last week that it had received a letter from South African sports authorities advising that South Africa planned officially to reapply to the Olympic movement.

South Africa has not been allowed to participate in Olympic events since 1964, because of its racial policies, and was officially expelled from the move-

CATCH - Ken Burrough thought be had caught a touchdown pass in the Pro Bowl, but the official ruled the ball had been trapped on the bounce in the end zone.

#### National Conference Prevails In the NFL Pro Bowl, 14-13

TAMPA, Fig., Jan, 24 (UPI),-Walter Payton rammed over from 1-yard out midway through the final period last night to give the National Conference a 14-13 victory over the American Conference in the Pro Bowl game of the National Football Laegue. Payton's touchdown fellowed

third-period National Confereuce score on a 4-yard pass from the St. Louis Cardinal quarterback, Jim Hart, to teammate Ter-Metcalf after the American

Conference took a 10-0 lead. The Dalias Cowboys' Efren Herrera kicked both extra points. Cakland's quarterback Ken Stabler, who completed 9 of 15 passes for 109 yards, hit teammate Cliff Branch with a 10-yard touchdown pass in the second period and Baltimere's kicker, Tem Liohart, kicked the extra He also booted field goals of 21

on a 52-yard attempt in the closing minutes of the game.
The National Conference, which evened the Pro Bowl series at 4-4, was threatening when the clock ran out.

and 39 yards but was far short

Payton, of the Chicago Bears, had 77 yerds rushing on 13 carries and was named the game's most valuable player. He had 18 yards rushing on 4 carries and caught an 11-yard pass from Hart in his scoring drive.

## **A Long, Hard Road to Major League Hockey**

By Robin Herman IN FLON, Manitoba, Jan. NYT).-The journey began re dawn with the tempera-22 degrees below zero. re were inicies on the inside the bus windows as the ndon Wheat Kings climbed urd for the seven-hour ride Saskatoon, and another e on the 72-game schedule. be weary players moved thy to their seats. Brad rimmon, a hefyt defensewith a scrubbed-looking chose a place on the aisle pushed back the seat to room for his sleeping bag. 's was a routine he learned : years ago, when he left his ents farm to play midget key, a kind of minor league

anada's junior hockey sys-. He was 14 years old then. cCrimmon wants to play in National Hockey League. him, this route down a late road through the froland above the 54th Paris the route to the pros. the end of the road, scouts waiting to record his pernance-bow deftly he hanthe puck, how hard he oks opponents into the ielding boards, how willing is to fight.

e and his teammates, aged 30 19, have already survived antiet that produced one or player for every 100 nesters entering the sport, \* of whom join at the level ed Pee Wee, a couple of cuts w even midget hockey. ugh high marks by the its, and McCrimmon will be one in 100 juniors who in 1 makes it to the major

aking it is a distant dream, he means a lifetime on the and an end to fantasies ame and money. Playing tey becomes an obsession eclipses thoughts of school, ily, girls and all the other

agers. To an outsider, junior hockey might seem harsh. But to the players, the hard life has compensation. This is a period of delicious anticipation and good times with friends.

The Wheat Kings play in a 12-team amateur league that sprawls across four Canadian provinces and three U.S. states. They play under conditions more brutal than any professional would ever submit to. Players speak of ramming opponents into boards, some which are part concrete, so the sconts can see. Last season one player lost an eye in a spearing incident. Many of the players display gaps where their front teeth used to be.

Far. Far From Home Off the ice, psychological conditions are cruel. The players must leave home at an early age in search of better comp tition, boarding with families near their new team. Most of the players drop out of high school, because the road trips make it impossible to keep up with classmates. A 16-year-old can be traded and abruptly find

himself 1,000 miles from the province he knew. That morning on the bus, McCrimmon was wide awake. He had just arrived after having played in an international junior tournament in Montreal Including this weeklong trip with the Wheat Kings, he was proud to say it would be 33 days before he got back to

missed his final exams at Only two years of junior hockey remained until he would urn 20 and became eligible for the NHL creat He had tasted the good life briefly in Montend he wanted to tell his buddles what by ehead. There was a curved around him, some youths sitting close

LONDON, Jan. 24 (IHT) .-

"Excuse, please," said the Tuni-sian passing through London.

"Which way to Glasgow? I've

come to spy out our 'Scottish

to forget Glasgow or Edinburgh. The Scottish players all play for

English league clubs. Money's

better, d'you see?"
"Ahs," said the Tunisian. "And

to which clubs do I go to find

"Sorry, old sport, wish I knew.

Tell the truth, they're moving around so fast, transferring from

one team to another, it's hard to

put you right. What I'd do, old

man, is turn up at the nearest

match and look for the familiar

signs, such as the center-half

At a Rapid Rate

The conversation is not as

imaginary as it may seem. Tunisla has down Scotland in

the World Cup, and the Scots are

indeed swopping clobs quicker than it takes to empty a bottle

So far in this topsy-turvey

season, English clubs, otherwise claiming to be destitute, have

found more than \$5.7 million to buy up one Scottish star after

another; indeed, in the last year,

Scotland by writte of his father's

nationality but actually born in

Aldershot, south England, when

his dether was in the grany, has

been transferred twice at more

It won't surprise you to hear

that the player doesn't exactly suffer financially from such

moves. Apart from any increase

in wages, he picks up 5 per cent of the transfer fee. And so in

the wake of the skipper, have the

Scots gone overboard: Kenny

Daiglish moved from Celtic to

Liverpool for £440,000; Joe Jor-

dam from Leeds to Manchester United for £350,000; Graham

Souness from Middlesbrough to

Liverpool for £252,080; goalkeeper

than \$300,000 a time.

Bruce Rioch, the captain

of Scotch whisky.

who punches his own keeper.

"Sorry, old sport, best bet is

World Cup opponents."

Expensive Boots "And the Montreal girls," said McCrimmon. "You should see how they dress! Two hundred fifty dellars for a pair of beets. Two handred fifty!"

Then, he said in a lower voice there was the 28-year-old woman he met in a discothequa who invited him for a weekend in the Laurentian Mountains if he ever made his way back east again "A weekend in the Lauren-

This was magic. Each

of the boys repeated it, and their voices overlapped in a chorus. Ray Alison; an 18-year-old forward, clasped his hands behind his head and stretched.

"Hey, I could handle that," he Frank Long smiled at the story, then turned over to sleep. He is 17 years old, and this is his first season in the juniors. If he does not reach the pros. he will go back to Branklon

and sall cars. Kelly (Suitcase) Short was also thinking. He had played for teams in three provinces. him about the impending midseason trading deadline. "Four more days, Short," they sald. "Four more days."

Setting an Age Limit Dunc McCallum, the Wheat Kings' coach, looked over his players. "I don't take them before they're 17," he said. "H you get them at 16, you have them for four years, and this might get to be a drag and the kid says. Forget it. Phus you've got a lot of big 19, 20-year-olds in the league, and it's a pretty physical league.
"That's what I like about the

Western League. We don't'

the hotels. The players are treeped rough. The true test is out west. You first out if your kid's got any jam or not." McCallum said that this trip

to Saskatoon is one of the monstop trip in an October trizzerd from New Westminster British Columbia, to Lethbridge Alberta, through the Rockies The team loft New Westminster after a Sunday night game at 11:30 p.m. and arrived at Lethbridge at 6 o'clock the next

## Man in the Red Coat

By Russell Baker

NEW YORK.—At Miami, the car rental company failed to deliver. "Your car is at the airport," said the computerized woman on the phone. We were at the railroad station, "I was told a man in a red cost would

meet me with a car at the railroad station." It sounded unbelievable, like explanations you give to nolicemen who have heard it all The computerized woman did not believe in railroad stations, except as she believed in stage

coach stops and the Titanic. Your car is at the airport," she said. She believed in airports as ahe believed in drugstores.

The airport was located at a distance of \$10 and looked like a drugstore that had gotten out of hand. "I have had to pay an extortionist \$10 to bring me from the railroad station." I told the rental clerk.

"Railroad station," she murmured. Caution was in her eye. "There are still railroad sta-

"I see." "I was told a man in a red coat would meet me with a car at the railroad station." establish credibility I showed her the notes I had made while dealing with the car rental company. The notes were on red paper.

"Ah," she said, "red paper." She surrendered the car keys anyhow, intimidated no doubt by the sight of my magnificent credit card. She did not believe in railroad stations, but she believed in credit cards, all right. I wanted to tell her I didn't believe in Baretta, but, realizing that the situation was delicate, thought better of it.

The episode set off R long period of brooding about what people believed in and didn't believe in and how the differences in people's beliefs led to these systemic breakdowns. It is a fact that car rental companies do not believe in railroad stations and, so, when you telephone and ask to pick up a car at a railroad station, they assume you are having your little joke and say, Sure, we'll have a man in a red coat meet you there with a car." and then arrange to have your

My problem had arisen from ignoring my own lack of faith in toll-free telephone numbers attached to area code 800. It was an area code-800 number that had promised the man in the red coat, and as a nonbeliever in dialing 800 I should have Ignored the promise and taken a plane.

At about the same time Jimmy

'The Flea Market is one of the places that the world seeks out in Paris, along with the Opera, the Eiffel Tower, the Avenue des Champs-Elysées...?

## Flea Market Sentenced to Respectability

By Aline Mosby

PARIS (UPD.—A controversy has erupted over whether the Peris Flea Market-landmark and tourist attraction along with the Fiffel Tower and Notre Dame Cathedralhas been centenced to respectability or even oblivion.

The City Couzell of suburban Saint-Ouen, site of the centuryold market, in November voted long-plenned zoning regulations that limit the number of stalls and street vendors. One street, Rue Paul Bert, al-

ready has been cleared of sidewalk salesmen who used to display emplent settees, copper pots and other Fies Market wares. The Saint-Ouen City Council said that the street was cleare cause "the municipality, while intending to conserve the Flea.

Unnoticed by Tourists

Market does not except that it

spreads all over Saint-Ouen."

The site of the world's largest flee market is an area of lowincome little houses and apartments, unmoticed by most tourists. The residents' streets during the market days of Saturday, Sunday and Monday are overwhelmed with cars, heaps of e, noise and crowds.

Not one butcher, baker or grocer exists in the neighborhood because shop space is taken by antique dealers. The City Council said that before its new restrictions, fire trucks and ambulances found it difficult to enter the crowded area: But half of the market's 3,000

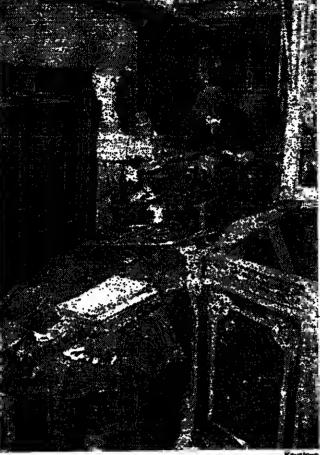

antique and junk dealers have formed a defense committee for the Saint-Ouen Flea Market. Organizers insist that the new laws lowering the density commercial occupancy are designed to push them out in favor of speculators wanting to build apartment houses.

"The Flea Market is one of the places that the world seeks out in Paris, along with the Opera, the Effel Tower, the Avenue des Champs-Klysées," committee president René Berdy

"The Seint-Ouen municipality says it wants to halt expansion. particularly by sidewalk vendors. But those new laws would kill the spirit, the life of the mar-

be international Herald Tribest vanual much to the reliability of the long cost

Fire sale at the Flea Market at Saint-Ouen.

et. Without the ragpickers on the streets it will not be a Flea Market. Within a few years. probably only two of the seven markets of the Flea Market will be left, just ordinary closed antique shops not an open mar-

Trash-Filled Streets

The City Council compleins tient it spends more to clean the trash-filled streets of the market area than it receives in taxes from the peddlers. The defense committee, on the

other hand, claims that the 150,000 persons who browse through the market each weekend include foreign antique dealers and tourists who pay in foreign currency, thus aiding the French economy.

"We already have received 180

O USE IN SITTING

FOR A PLEASANTLY MEMOR-

letters from abroad from tourints saying, Don't destroy the Flea Market." Mr. Berdy said. We have 1,800 signatures from merchants and visitors on these pstitions which we are going to send to the Saint-Ouen City

The City Council in turn has circulated rival petitions around the sprawling market opposing extension of the market bound-

The City Council also points out that a Nov. 1 stre destroyed one stall, and that the rambling labyrinth of wooden stalls jammed with furniture and other amable objects could easily erupt into flames.

To complicate the controversy further, Saint-Ouen's complaining mayor and City Comeil bers ere Communista. A conservative Paris newspaper

Spirit-Ouen Communist City Council Wants to Raze Flea.

The Flea Market sprang up in Saint-Ouen approximately a century ago near old fortifications marking the boundary of the city of Paris. The ancient walls were torn down to build a highway

At first only ragnickers and thieves laid out old jewelry, furrature, clothes and household objects on the sidewalks and vacant lots. With the 20th century came a brisk business for old objects so secondhand dealers began to set up ramshackle stalls. Next prosperous antique dealers moved in to build permanent stalls or even shops.

During the last decade top antique dealers with elegant stores in Paris have opened Flea Market brenches

Now the colorful market con-sists of 3,000 merchants hawking their wares in seven separete markets rambling over 17 acres of Saint-Ouen's shabby

The merchants range from wealthy dealers selling Louis XV chairs to African immigrants offering rues on the sidewalk persons make a living from the market by operating restaurants ice cream and crepe stands and packing-shipping companies.

Fashion Center

The Fies Market also has become a fashion center in recent years. Stalls now offer new clothing from blue jeans and shoes to fur coats and sweaters. Tourists grumble that fee argains are to be found in the market and prices often are the same or higher than in the nant shops in Pazis,

But chie Parisians still flock to the market to walk their dogs, eat mussels steamed in wine and see what everybody else is wearing. The ragpickers, edged out by the big antique dealers and Saint-Ouen City Council regula-

tions, have moved on to flea-sized flea markets growing on other fringes of Paris at Montreuil. Vanves and Bicetre and the little Aligre square in east-

	-/ In international daily and	Pr. 1,100, PATIS: /34.14.0/-

In the Herald Tribune, Europe's only international daily and the one read most by most multi-national executives, the level of positions offered is higher than that of other newspapers; interest and response are higher, too.

So if you're ao executive looking for a better job, you're more likely to find it in the Herald Tribune.

If, on the other hand, you're a company seeking a qualified international executive, you're likely to be successful with an ad in the Herald Tribune IEO section. Because...

Herald Tribune ads work
